

ELI Credits

Every Scoro plan includes ELI credits so your team can use Scoro's native AI capabilities – from surfacing insights and generating reports to automating actions.

What are credits?

Every request you make to ELI uses **credits**. The number of credits used depends on the complexity of the request – a quick data lookup uses fewer credits than a multi-step action or a complex analysis. As a rule of thumb: **1 request ≈ 10 credits**.

Each Scoro plan includes a monthly credit allowance, and you can add more credits to your plan if needed.

LIGHT

Look up a metric or answer a quick question

~5 credits

STANDARD

Filter a list, compare periods, or surface insights

~10 credits

COMPLEX

Generate a report, run a multi-step analysis

~20 credits

Credits included in your plan

CORE

60 credits

per seat per month

GROWTH

80 credits

per seat per month

PERFORMANCE

140 credits

per seat per month

ENTERPRISE

150 credits

per seat per month

💡 Credits are **pooled across your team**. Your total monthly allowance is based on the user count but shared at the company level, so if one person uses fewer, another can use more.

Need more? Add credits

	2,000 credits	5,000 credits
	Annual / Monthly	Annual / Monthly
EUR	€42 / €49	€84 / €99
USD	\$48 / \$57	\$98 / \$115
GBP	£36 / £43	£73 / £86
AUD	\$69 / \$82	\$140 / \$165
CAD	\$66 / \$78	\$134 / \$158

Annual pricing reflects a 15% discount.

Credits reset monthly. Unused credits do not roll over. Add-ons can be added or removed at any time.
